

ICF Credentialing

A globally recognised qualification

The International Coach Federation (ICF) is the largest global association of coaches with over 11,000 members. The ICF has been a leader in establishing both ethical standards and coaching competencies worldwide.

Results is proud to be one of the few coaching schools worldwide that offer an Accredited Coach Training Program (ACTP) from the ICF. Completing the programs detailed below provides you not only with globally recognised training, but also helps you meet requirements for your own credential from the ICF.

The Results ICF Credential Pathway meets the coach training requirements for both the Associate Certified Coach (ACC) and Professional Certified Coach (PCC) credentials with the ICF. You will need to document your own coaching experience separately.

The training and coaching requirements for individual applications with the ICF are:

Associate Certified Coach (ACC)

A minimum of 60 hours of coach specific training and 100 hours of coaching experience.

Professional Certified Coach (PCC)

A total of 125 hours of coach specific training and 750 hours of coaching experience.

Please see the ICF website at www.coachfederation.org for a complete list of all requirements.

Design a training pathway that suits your needs

With our modular program, you can choose the courses that make up your ICF Credential Pathway. Please choose from the following:

Foundation*

- Intensive Coach Training

Continuing Education

- Building Your Practice
- Life Skills
- Work Skills
- Coach's Toolkit
- Intuitive Coaching
- Coaching in the Workplace

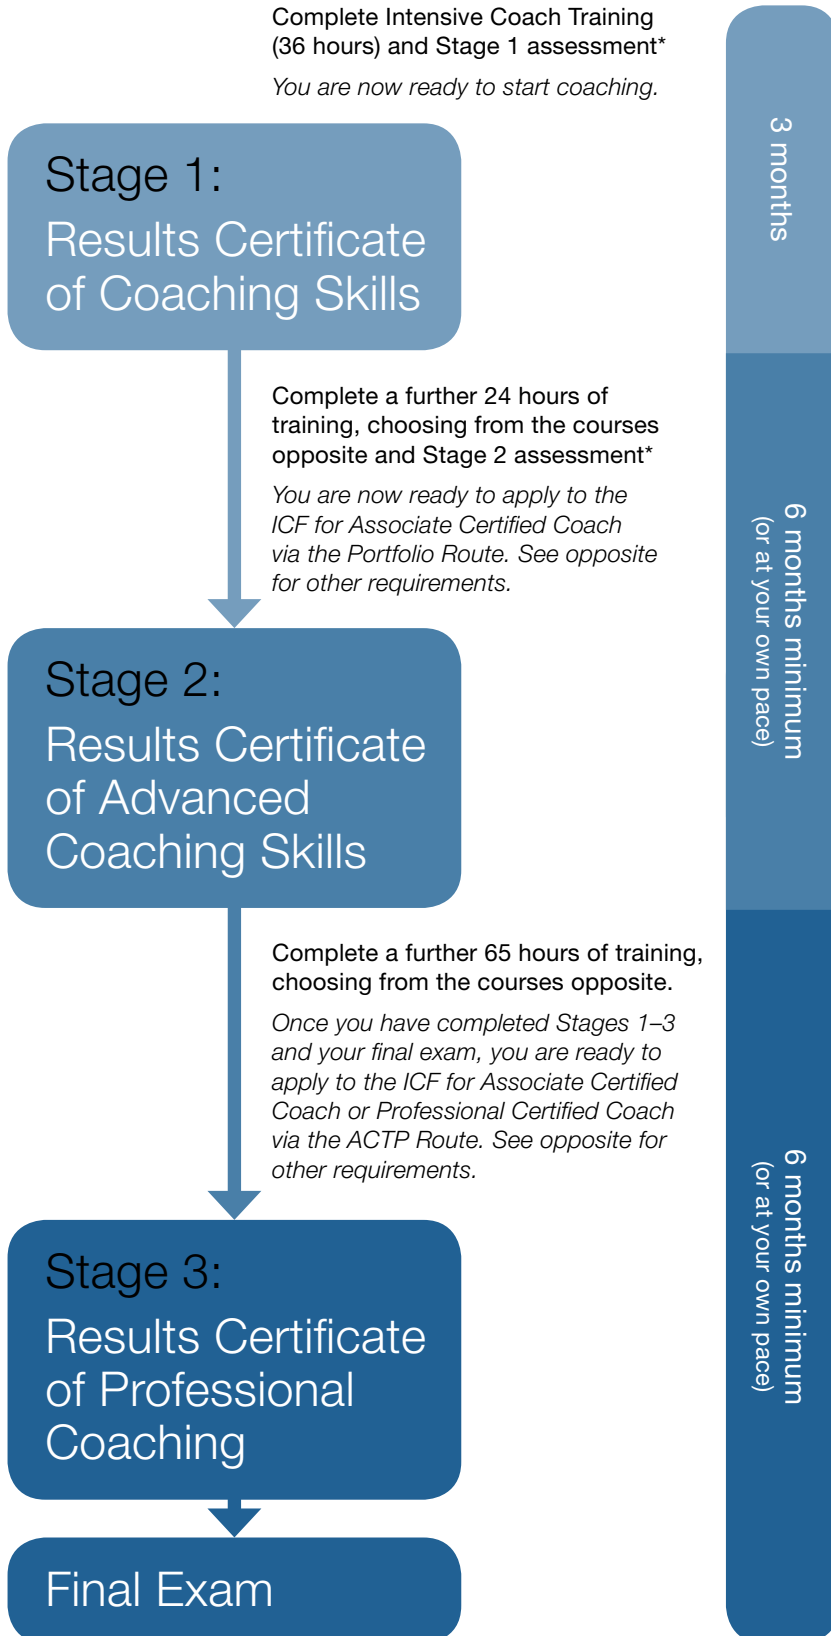

Specialist Education

- Business Coach Training
- Executive Coach Training
- Team Coach Training
- Theoretical Foundations of Coaching

* This program is mandatory
